Date/Dyddiad: 1st July 2008

Dear Dave

Re: Dave Lloyd Mega Challenge 29th June 2008

I write in relation to the above and as the Operations Superintendent with responsibility for Roads Policing throughout North Wales.

I rode the event on Sunday (albeit the short course) and did so for two reasons, firstly as a keen cyclist and secondly, more importantly, to assess the event from a safety point of view. Having reviewed our incident logs appertaining to the event (there being only one) I can say that from a policing perspective the event went very well.

The marshalling and signage were on the whole very good and ensured the event went smoothly, although I suspect one or two of the road signs had fallen off or been removed prior to the event taking place. This led to the one suggestion (he did not want it recording as a complaint) from a motorist in Llandyrnog who would have liked to have seen more road signs warning that the event was taking place.

Back support was excellent as was the event venue, from the riders I have spoken to, all have nothing but praise for the organization, planning and regular briefings received.

Despite the weather I thoroughly enjoyed the event and look forward to next years when I will be riding the 140 mile course.

Yours sincerely,

Superintendent B.C. Jones
